

While you are at home, pick 1 or 2 activities a week to complete.

History

Do you know why we celebrate Bonfire Night? Research and write a short sentence on what the historical significance is behind this event. Can you create a collage picture of bonfire night to accompany your writing?

Maths

FAIRYCAKE COMPETITION!

(Adult assistance required!)

I would like you to make some fairy cakes and apply any knowledge that you may have on measuring mass (grams/kilograms)!

Send me pictures of your finished results and the student to produce the most innovative and impressive fairy cake decoration will receive a prize in the post from Miss Jeremy!

Geography

Can you name, locate and identify characteristics of the seas surrounding the United Kingdom?

Science

Miss Jeremy's teddy bear is in desperate need of a new coat since the weather forecast is set to be rainy for the next few days. I

would like you to research and test which of the following materials would be best to make a new waterproof coat. You could create a simple comparative test with water to decide which is best!

- Paper
- Card
- Plastic
- Fabric

Art project

Father's Day is fast approaching and it is time to get your art materials out, dust off those paint brushes and make a beautiful Father's Day card to make your Pappa smile 😊 For some of us, Father's Day may be a time to celebrate anyone who is a caregiver to us. It could be an Aunt, Uncle, Cousin, Grandfather, Grandmother – maybe you have two Fathers to celebrate on Father's Day. Anyone who is a caregiver can be celebrated on this day. The great thing about art and creativity is that you can create something beautiful and dedicate it anyone special in your life. So, get creative and show off your incredible writing skills by writing a lovely note inside of your card expressing just how special that person is to you.
